***Response to Amendment***

1. The amendment to the claims filed on 9/7/2004 does not comply with the requirements of 37 CFR 1.121(c) because the claims submitted 8/12/2004 were non-compliant and thus never entered. All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as "withdrawn—currently amended."

All pending claims are the claims as originally presented 10/22/03. The amendment of 9/7/04 lists claims 1,16,17, as "previously amended" when they have not been previously amended, since the 8/12/2004 amendment was non-compliant and thus not entered. All claims, including claim 25, that applicant wants to amend relative to 10/22/03 must be submitted with "currently amended" status and must show changes relative to the 10/22/03 claim wording.

Art Unit: 3677

2. Amendments to the claims filed on or after July 30, 2003 must comply with 37

CFR 1.121(c) which states:

(c) *Claims*. Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

(1) *Claim listing*. All of the claims presented in a claim listing shall be presented in ascending numerical order. Consecutive claims having the same status of "canceled" or "not entered" may be aggregated into one statement (e.g., Claims 1–5 (canceled)). **The claim listing shall commence on a separate sheet of the amendment document and the sheet(s) that contain the text of any part of the claims shall not contain any other part of the amendment.**

(2) *When claim text with markings is required*. All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of "currently amended," or "withdrawn" if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as "withdrawn—currently amended."

(3) *When claim text in clean version is required*. The text of all pending claims not being currently amended shall be presented in the claim listing in clean version, i.e., without any markings in the presentation of text. The presentation of a clean version of any claim having the status of "original," "withdrawn" or "previously presented" will constitute an assertion that it has not been changed relative to the immediate prior version, except to omit markings that may have been present in the immediate prior version of the claims of the status of "withdrawn" or "previously presented." Any claim added by amendment must be indicated with the status of "new" and presented in clean version, i.e., without any underlining.

(4) *When claim text shall not be presented; canceling a claim*.

(i) No claim text shall be presented for any claim in the claim listing with the status of "canceled" or "not entered."

(ii) Cancellation of a claim shall be effected by an instruction to cancel a particular claim number. Identifying the status of a claim in the claim listing as "canceled" will constitute an instruction to cancel the claim.

(5) *Reinstatement of previously canceled claim.* A claim which was previously canceled may be reinstated only by adding the claim as a "new" claim with a new claim number.

3. Since the reply filed on 9/7/2004 is a second consecutive non-compliant amendment, applicant is not normally given an additional TIME PERIOD within which to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment.

*Per MPEP 714.03:*

*Likewise, once an inadvertent omission is brought to the attention of the applicant, the question of inadvertence no longer exists. Therefore, a second Office action giving another new (1 month) time period to supply the omission would not be appropriate under 37 CFR 1.135(c).*

Since this would result in immediate abandonment of the application, examiner is using her allowed discretion and is accepting this as a bona fide attempt, since the rule changes are relatively new. Also, since the applicant did respond promptly to the first notice of non-compliance, it does not appear to this examiner that applicant is attempting to deliberately or improperly attempting to abuse the practice under 37 CFR 1.135(c) to obtain additional time for filing a reply. Thus applicant is given a TIME PERIOD of **ONE (1) MONTH** or **THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

*Per MPEP 714.03:*

*37 CFR 1.135(c) authorizes, but does not require, an examiner to give the applicant a new time period to supply an omission. Thus, where the examiner concludes that the applicant is attempting to abuse the practice under 37 CFR 1.135(c) to obtain additional time for filing a reply (or where there is sufficient time for applicant's reply to be filed within the time period for reply to the non-final Office action), the examiner need only indicate by telephone or in an Office communication (as discussed above) that the reply must be completed within the period for reply to the non-final Office action or within any extension pursuant to 37 CFR 1.136(a) to avoid abandonment.*

4. However, any additional non-compliant amendment will not be given a time period for reply and will result in abandonment of the application.
